

THE VALUE OF SCIENCE

Explained in a comic

Idea:

Asgedom Haile & Sven Schneider

Drawing:

Iuliia Osintseva

THE VALUE OF SCIENCE

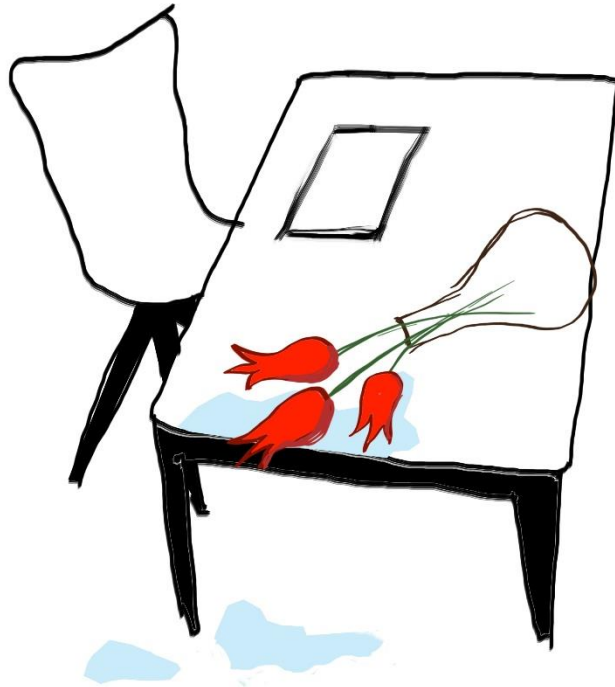

An example from everyday life

Asgedom (from Ethiopia) is working in an office together with 10 others. It's a Friday and his birthday. His colleagues gave him a beautiful bouquet.

THE VALUE OF SCIENCE

An example from everyday life

On Monday, Asgedom entered the office and saw the vase with the flowers fallen over!

THE VALUE OF SCIENCE

An example from everyday life

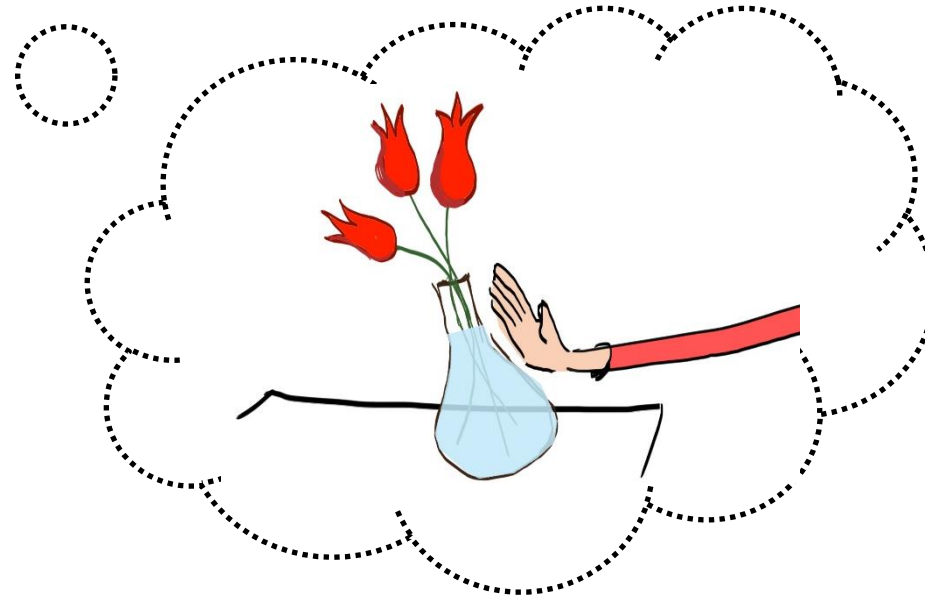

Asgedom was sad and thought about how this could have happend.

THE VALUE OF SCIENCE

An example from everyday life

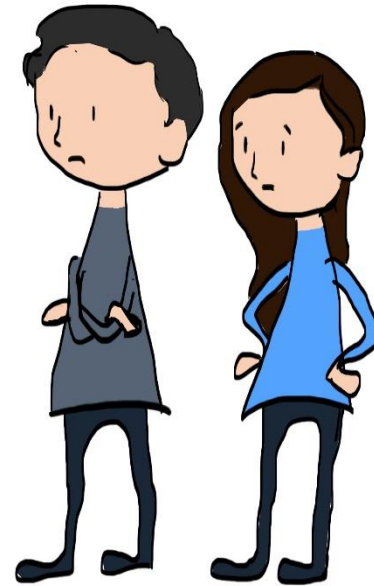

Asgedom was sad and thought about how this could have happend.

THE VALUE OF SCIENCE

An example from everyday life

Two of his colleagues came by and listened to Asgedoms suspicion. Together they thought about who could be so crude...

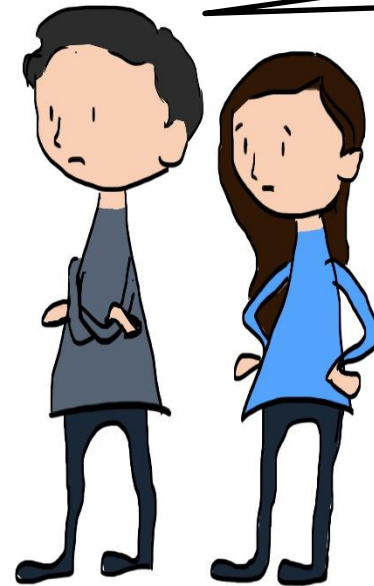

THE VALUE OF SCIENCE

An example from everyday life

Two of his colleagues came by and listened to Asgedoms suspicion. Together they thought about who could be so crude...

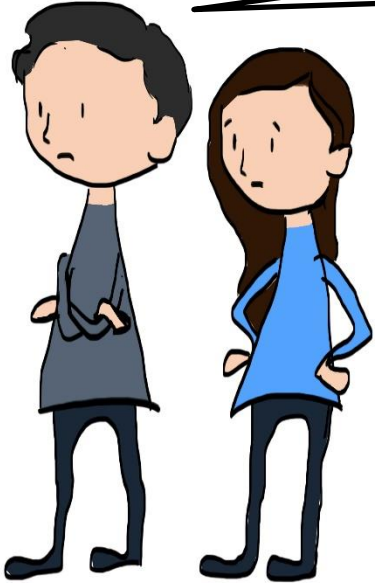

Maybe it was Sven?

THE VALUE OF SCIENCE

An example from everyday life

Two of his colleagues came by and listened to Asgedoms suspicion. Together they thought about who could be so crude...

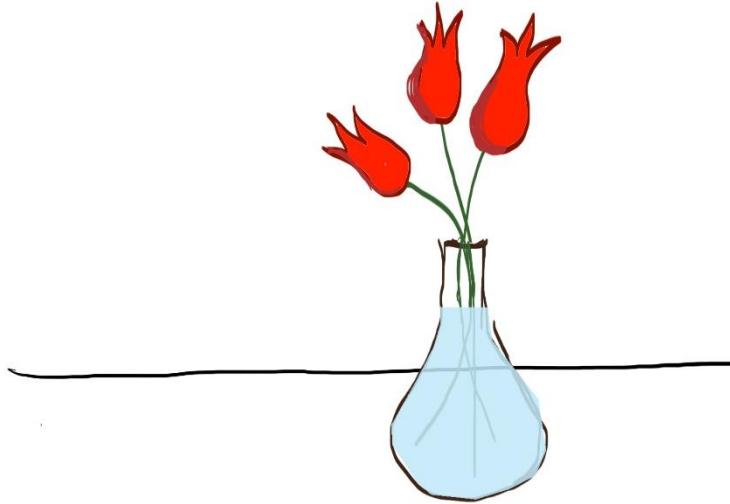

Maybe it was Sven?

You're right, he always has something discriminating in his way of talking...

THE VALUE OF SCIENCE

An example from everyday life

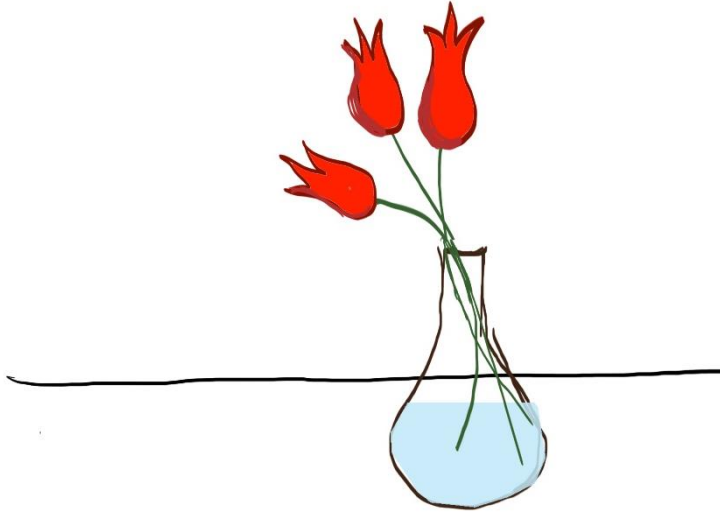

What might have really
happend...

THE VALUE OF SCIENCE

An example from everyday life

What might have really
happend...

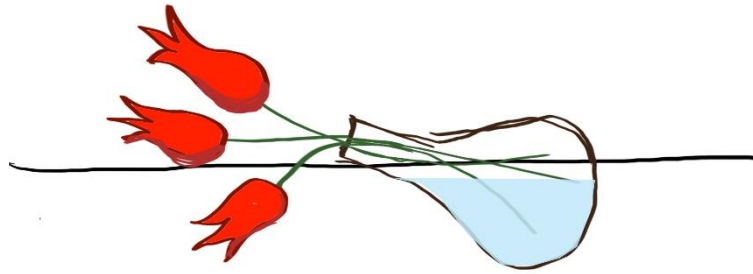

1. Water vaporates and the flowers soak it up

THE VALUE OF SCIENCE

An example from everyday life

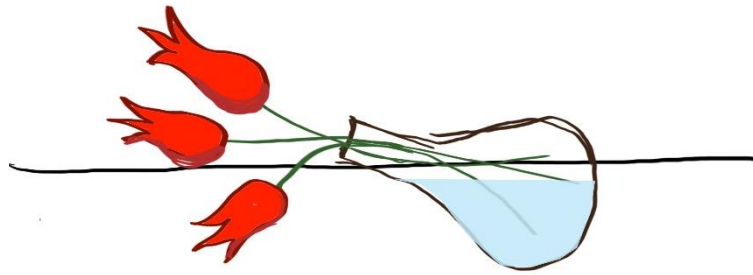

What might have really
happend...

2. Because of missing load in
the bottom of the vase the
vase falls over.

THE VALUE OF SCIENCE

An example from everyday life

Hmm, understanding natural science could have prevented us from making hasty conclusions!
